PROJECT SUN STREAK (U)

Session Procedures Report

FORMAT

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

Control Number: 8610

Nickname:

Date of Session: 11 Sept 86

Target Country:

References:

Session Number: CRV # 7

Date of Report: 12 Sept 86

Mission Status:

Technique Utilized: CRV

Source Identifier: RV-021

1. (S/NF/SK) TASKING: no change

2. (S/NF/SK) Session: Monitor entered session with the same ~~old~~ target inf data as last six sessions. Session began to 'bog down' when viewer ~~attempted~~ had difficulty attempting to perceive the type of activity at the site. Monitor then cued viewer with the key intelligence question: "Can you perceive if the present activities at this site are the same as those 1 year from now?" ("Activity" is a more general idea-pattern than "type of (specific) activity"). Source responded with the data contained in the summary.

3. (S/NF/SK) Summary: Site is a long, low, 3-level structure. It is in a closed in area (possibly surrounded by other buildings). Some people in the building wear white jumpsuits like clothing.

8610 11 SEP 86 RV-021 (cont)

There are chemical smells in the building. (There is activity here but source did not ~~perceive~~ receive ~~the~~ strong impressions of it). One man at the site has a very scientific "feel" and "appearance", ~~etc.~~

The activities at the site are long-term, but are not resolvable within the next year. They will be abandoned either out of frustration on the part of those working the problem, or by a decision of someone in power who has "had enough" — "let's get on with more important issues" — this idea. There is also an idea, associated with the site, of a change in the balance of power (NFI).
